

# CAMPS THAT FEEL LIKE HOME

Today, more than ever, companies around the world are faced with the challenge of providing remote workers with a comfortable, welcoming and supportive environment both on and off the job.

By implementing a maintenance program designed around the needs of your residents, Alcor will transform your camp into a home away from home. From day-to-day maintenance requests to major renovations, and everything in between, Alcor's team of highly trained technicians are ready to serve.

Alcor Facilities – Living in Camp Never Felt So Good.

PEOPLE. PROCESS. PERFORMANCE.

## FLEXIBLE, DYNAMIC, RELIABLE

Founded in 1972, Alcor Facilities Management has more than 40 years of experience providing customized facility maintenance solutions. With a diverse team of highly skilled technicians Alcor is capable of implementing a solution designed around the specific needs of our client and their assets. Supported by our electronic Maintenance Management System, Alcor's technicians engage in regularly scheduled preventative and predictive maintenance to maximize asset life and performance.

## OUR SAFETY COMMITMENT

Ensuring the safety of our technicians and the clients we serve is our number one priority. Alcor's comprehensive health, safety and environmental program is committed to providing and maintaining a supportive work environment free from controllable hazards. By providing the very best training, support, and equipment available, we can ensure that every day spent working in an Alcor facility is a good day for our technicians and the clients they serve.

## OUR SERVICES

With a wide range of available services and technicians, Alcor is far from 'just another maintenance company'. By combining the skills of our technicians with our network of highly qualified subcontractors, Alcor is able to provide the labour, equipment and materials required to complete any task. A sampling of Alcor's services includes:

- Lodge Maintenance
- Process & Non-Process Facility Maintenance
- Site Wide Services
- Construction & Renovation
- Vehicle Maintenance & Fleet Management
- Fire Water Maintenance
- Commercial and Residential Property Management
- Fitness Facility Design Installation & Maintenance
- Industrial Trailer Mobilization
- Renovation & Demobilization
- Supply Chain Management
- Consulting Services

## OUR PERSONNEL

From fitness equipment mechanics to master electricians, Alcor's team of non-union trades workers and support personnel is ready to serve. Whether your facility requires long maintenance, short-term construction or one-off repairs, Alcor has the personnel you need to ensure your success.
